Safety First

Golf discs can cause serious injury. Never throw when players or Campers are within range. Alway give Campers the right of way. Be aware of your surroundings and environment. Before starting, review the map and rule board on the course kiosk.

Guidelines for Play

Begin each hole at the tee. Lowest score from the previous hole goes first. Then you throw from up to 12 feet behind where your disc comes to rest. You finish the hole when your disc is supported by the basket piece or chains. Player farthest from the basket throws first.

Out of Bounds

If your disc comes to rest out-of-bounds, mark a lie 1 meter from the out of bounds border perpendicular to your out of bounds lie. Take a one-throw penalty and re-throw from that spot, or from where your disc was last in-bounds.
