

Sequassen Accomplishments  
9/2006-08/2007

Compiled by Sequassen Maintenance Committee  
Tom Young, Chairman      John Burke, Vice Chairman  
Pat Maxim, Vice Chairman  
David Boyajian, Camp Ranger

This report tries to reflect all of the accomplishments related to the facilities at Camp Sequassen; not just the activities of the Maintenance Committee, but the activities of all the groups and individuals who gave up their time and talents for the boys!

Major accomplishments by the volunteers this year include:

- 1.) Major progress was made on the new front sign project, including the installation of retaining walls along the front parking lot and the replanting of the Cassella Garden.
- 2.) Major repairs to the Dining Hall including refitting and repainting all of the windows, cleaning the screens, and painting and trimming out the interior.
- 3.) The Shotgun Building was jacked up and the old deck was torn out and replaced with pressure treated wood. New railings were installed and a pressure treated wood sill was placed under the building.
- 4.) Rebuilt North Shower House
- 5.) Installed a brick walk from the covered bridge to the Dining Hall

I'd like to take this opportunity to congratulate the new members of the Maintenance Committee, Lynn Crisci and Hugh Delage.

This year we mourned the passing of Fred Sears, a stalwart of the maintenance committee. Fred never missed a Work Party. A sign will be erected in the Maintenance Building over the corner where Fred usually worked, dedicating the corner as "Fred's Corner".

Finally, I'd like to give a big thank you to all who have come up and helped out with the projects this year, especially the Summer Camp Staff, who came up and painted the interior of the Dining Hall during the May Mini Work Party.

#### September 2006

- Redecked the shotgun building and replaced the deck with pressure treated wood, installed new railings and a sill under the building with pressure treated wood
- Repaired twelve utility carts

#### October 2006 (Major Work Party)
