

Sequassen Accomplishments
9/2008-08/2009

Compiled by Sequassen Maintenance Committee
Tom Young, Chairman Matt Balls, Vice Chairman
Pat Maxim, Vice Chairman
David Boyajian, Camp Ranger

Highlights for the year include:

- General makeover of the Bogan Waterfront including a new brick patio, a new lifeguard tower, new furniture and enhanced electrical systems under Loomis
- Stripped and reroofed the Health Lodge
- Built new lean-tos in Nathan Hale, Royal Wood, and Polaris
- Roofed Zimmerman Lodge

This year we mourned the passing of Stuart Hadden, a stalwart of the maintenance committee and a fine man. Currently, the maintenance committee is accepting suggestions as to how we should honor "Stu". At the Fall '09 Work Party, we began a new annual award in honor of John Burke, known as "The Burke Knife". As with "The Leary Hammer", this plaque will be awarded to the hardest working person at the Fall Major Work Party, to be rotated every year. The first annual recipient was Thomas Gordon.

This report tries to reflect all of the accomplishments related to the facilities at Camp Sequassen; not just the activities of the Maintenance Committee, but the activities of all the groups and individuals who gave up their time and talents for the boys!

September 2008

- Pre-cut wood and erected new leader's lean-to in Nathan Hale and installed bunks and shingled
- Pre-cut wood and erected new leader's lean-to in Royal Wood and installed bunks and shingled
